Amendment to Internal Regulation

Last year, one of the associates came with the question when the membership of the IUG can be terminated. The IUG working group has investigated this question and propose to add an article 10 to the internal regulations;

Article 10.

Termination of membership

The board may terminate IUG membership if an associate violates the ISPO code, the articles of association, the internal regulations, the associate agreement, other IUG regulations and/or resolutions, or acts in such a way that the IUG would be unreasonably prejudiced.

Motivation:

The conditions for termination of the IUG membership are now described in various documents such as, articles of association, internal regulations and associate agreement. In order to keep it clear to everyone, to keep it transparent and to preserve freedom of action, it has been decided to include the above mentioned article in the internal regulation.
